DETAILED ACTION
Election/Restrictions

Newly added claims 48-49 read on a non-elected species and thus have been withdrawn from examination.

New grounds of rejection

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Vriens et al. (US pat 5,813,753).

With respect to claim 1, Vriens et al. teach a semiconductor light emitting device comprising (see fig. 5 and related text):

a substrate having a face that includes a cavity therein;

a flexible film or epoxy 55 that includes therein an optical element (transmit light), wherein the flexible film extends onto, and is attached to, the face beyond the cavity and the optical element overlies the cavity;

a semiconductor light emitting element (LED) in the cavity and configured to emit light through the optical element; and

an optical coupling media (phosphor layer) in the cavity between the optical element and the semiconductor light emitting element.

Allowable Subject Matter

Claims 15, 19, 20, 21, 23-25, and 47 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
